CHOOSING

YOUR TEAM HAS NEVER BEEN SO EASY

Pop-culture: The association between finding useful talent and the popular app ‘Tinder’ highlighted time and effort saving in finding a candidate that suits the Project Manager’s needs.

Visual Association: Leveraging popular biases, we induced grievances with the status quo by highlighting a specific problem and satirically associating it with an exaggerated illustration.

THE WORLD
IS YOUR WORKFORCE

A unique opportunity to learn, grow, and work with experts from around the world.

Opportunity Cost: By highlighting opportunities that a project manager may otherwise not have, we made leveraging UpWork for talent acquisition more appealing at a personal level.

In-Office Branding: The use of conversational language along with suggestive imagery enabled better recall in the short and long term.

CLOVE DENTAL

SCENARIO:

CLOVE DENTAL, a prominent chain of dental care clinics wanted to improve its brand perception and launch its product line.

CHALLENGE:

CLOVE DENTAL in its original form employed an outdated design and messaging strategy. Although its services were state-of-the-art, the brand did not appear to be so.

RITZ MEDIA WORLD was charged with reconfiguring the creative direction of CLOVE DENTAL and bringing coherence between its quality of service and perception.

SOLUTION SUMMARY:

RITZ MEDIA WORLD reconfigured CLOVE DENTAL's messaging strategy along with its visual signature. Leading to a complete overhaul of its outward perception.

COMMUNICATION

First, the terminology was simplified to ease recall. This meant we employed result-oriented copywriting for visual content.

Product Placement: using simplified copy with a counterintuitive visual helps in making the post easier to recall.

Establishing Gravitas: For dental care to be important, people must care about dental care. This is why we shared creatives that establish the importance of caring for an essential part of our body.

Establishing Priorities: post establishing the importance of dental care, content related to proper care of teeth was shared in the content marketing vertical.
