

	Short Task /Project Page	Task Description	Status	Remark				
Date= 17-02-2026								
RMW	rdx digital marketing	Create a new rdx digital marketing course with fully responsiveness and functionality.	Complete					
CT		Setup CT final website.	Complete					
Date= 18-02-2026								
CT		Observation of website	Complete					
		Identify and Solve Issues	Complete					
		Code optimizationon desktop and mobile screen	Complete					
		Slider extra blank space and Responsiveness Modifications	Complete					
Date= 19-02-2026								
RMW		Code committed on Git (rdx).						
CT		Identified issue and updated Home Page design: -Reduced letter spacing (Navbar, Hero, Portfolio, Expertise). -Changed active color from blue to golden. -Center-aligned Services content. -Reduced social media icon size and updated shadow color as per brand.						
		Video reels opens in popup modal on click.						
Date= 20-02-2026								
CT		-Implemented card swap animation using GSAP						
		-Modified Home page layout and added smooth animations						
		-Modified Home page layout and added smooth animations						
		implement animationeffects and change design with content to the Services section						
		create Interactive website section						
Date= 23-02-2026								
CT		Implemented a scroll-based pinned section using ScrollTrigger						
		Created stacked card animation: center stack → spread to top-right → diagonal move to left-bottom						
		Applied fade in smooth animation with transitions						
		Enhanced Home Page design and added structured descriptive content						

Date= 24-02-2026								
CT		-Optimized ScrollTrigger timelines and adjusted scrub behavior for smoother interaction						
		-Added stagger configuration for section reveal animations						
		Improved mobile responsiveness and fine-tuned layout spacing						
		Conducted performance testing and minor UI refinements on the Home Page.						
Date= 25-02-2026								
CT		Added a new interactive section after researching modern design references and layout inspirations.						
		Implemented a scroll-triggered video zoom-in / zoom-out animation section for enhanced visual storytelling.						
		Built a multi-row gallery slider with reverse-direction animation logic for alternate rows.						
		Improved UI alignment, responsiveness, and interaction smoothness.						
Date= 26-02-2026								
CT		Implement Fade animation for initiative section.						
		Implement Shrink text on scroll using ScrollTrigger.						
		- update service content and hover effects						
		- implement navbar hide on scroll						
Date= 27-02-2026								
CT		Managed spacing across all sections for better layout consistency.						
		Fixed smoothness issues in the zoom-out animation.						
		Deploy website on netlify with creating a new branch						
		Create a single page of services .						
Date= 02-03-2026								
CT		-Manage banner section	Complete					
		Implement scroll-to-section functionality on service click	Complete					
		Add zoom-out animation to the video section	Complete					
		-Update sidebar content	Complete					
		Update image / video of home and services page	Complete					

		Convert routing/navigation of every page from single page	Complete				
Date=03-03-206							
CT		fix Header routing	Complete				
		Deployment	Complete				
		Update content of services	Complete				
		Create docs requirement of image and videos	Complete				
		Create image url and update in project	Complete				
Date=05-03-206							
CT		Implement video play / pause functionality on home page.	Complete				
		- Update images and videos on the Home and Services pages and implement play / pause functionality where required.	Complete				
		Prepare a documentation file listing the required images and videos.	Complete				
		- Create a Creative Portfolio section on the Portfolio page.	Complete				
Date=06-03-206							
CT(PORTFOLIO)		- Fix creative portfolio section on portfolio page with responsive.	Complete				
		-Create a my portfolio Gallery section with responsive.	Complete				
		- Implement hover effect vdo sound play	Complete				
Date=09-03-206							
CT(PORTFOLIO)		- Implement animation of creative portfolio section	Complete				
		- Implement animation of my gallery section.	Complete				
		- Improve performance of Website	Complete				
		- Update Galley image of home page	Complete				
Date=10-03-206							
CT(PORTFOLIO)	Portfolio	- Implement animation Parallax effects on background images with adding element img of home page.	Complete				
		-Smooth easing on movement.	Complete				
Date=11-03-206							

CT(HOME)		Created new project setup.	Complete					
	Home	- Implemented bird animation using GSAP ScrollTrigger.	Complete					
		- Implemented bird fade-in and fade-out animation.	Complete					
		- Animated bird movement from center to right in the Hero section.	Complete					
		- Implemented bird movement from right to left-bottom for the GenAI and AI Quote sections.	Complete					
		- Implemented bird movement straight from left to right for the Reels section.	Complete					
		Implemented bird movement from right to left and left to right. - Managed bird direction based on flying direction.	Complete Complete					
Date=12-03-206								
CT		- Implemented bird animation using **GSAP ScrollTrigger-	Complete					
	Home	-Implement bird movement animation for services section	Complete					
		-implement bird movement animation for 3D section-	Complete					
		-Implement aniamtion for bottom section	Complete					
Date=13-03-206								
CT	Implemented bird animation with GSAP ScrollTrigger.	Implemented bird animation using GSAP ScrollTrigger.	Complete					
	Home		Complete					
		Added scroll-based bird movement from the bottom section, overlapping the contact section.	Complete					
			Complete					
		Removed and adjusted an animation in the interactive section.	Complete					
			Complete					
		Created a new section for the footer that overlaps the footer video, with a “Contact Us” button linking to the contact page.	Complete					
			Complete					
		Managed routing of the Navbar for the contact page.	Complete					
		Added a hamburger menu on the desktop screen that opens like a slider.	Complete	Modifiction by abhishek				
Date=16-03-206								
		Implemented a new animation for the burger menu open slider, improving the visual interaction and user experience.	Complete	Modifiction by abhishek				
		Reverted the codebase from the main branch to ensure stability and consistency	Complete					

CT		Updated and modified video assets, then successfully deployed them on the live CT website.	Complete					
		Designed and integrated new animations for the Expert Section, including smooth slide-in effects from left and right with fade transitions using ScrollTrigger.(modification by Rachna)	Complete					
		Made all sections fully responsive across devices for better usability.	Complete					
		Completed deployment of the updated project on Vercel.	Complete					
Date=17-03-206								
CT		Bird animation flow underflow reels section.	Complete	Modification by Rachna				
		Bird animation flow underflow interactive section.	Complete	Modification by Rachna				
		Bird rotation smooth movement for every section of home page(AiQuote, Reels, Interactive, 3D cards, expert services sections)	Complete					
		New upload image of logo header and footer section	Complete					
Date=18-03-206								
CT	Home Page	Completed responsive fixes for desktop & mobile	Complete					
		Improved performance and optimized assets	Complete					
		Resolved animation jitter and scroll issues	Complete					
		Refactored and optimized codebase	Complete					
		Deployed build for testing	Complete					
Date=19-03-206								
rmw	Comming soon page	Create animated comming soon page	Complete					
	contact page	Create contact form onclick of get in touch button	Complete					
	Deploye netlify	Deploye on netlify	Complete					
		Make responsive for mobile and desktop screen	Complete					
Date=20-03-206								
RMW	Setup	Install mysql and setup	Complete					
		Clone and setup project	Complete					
CT	Service	chnage service page content and modification of design with responsiveness	Complete					
	create page	create service , porfolio page	Complete					
	Footer	add footer of all pages	Complete					
	Footer	change footer logo and add social media link	Complete					

	Home	fix responsiveness	Complete				
Date=23-03-206							
CT	All pages	Upload assets files and Deployment	Complete				
RMW	(services-v3)	Rotate in a loop of "Experience section	Complete				
	(radio-advertising-services)	Update banner for desktop and mobile screen.	Complete				
	(radio-advertising-services)	Update img of "place our brand " section.	Complete				
	(radio-advertising-services)	update img for "advantage of radio" section.	Complete				
	(radio-advertising-services)	Update img and add hover effect for buttons and add numbering function of "what we provide"	Complete				
Date=24-03-206							
RMW	Services-v3	Fix responsiveness and alignment	Complete				
	(radio-advertising-services)	Fix responsiveness and alignment	Complete				
CT	Banner section	Update Banner	Complete				
	Home	add linking of all buttons	Complete				
	Home	Deployment	Complete				
	Home	Modify image of element and rotation for animation on local	Complete	Modify by rachna			
Date=25-03-206							
RMW	Services-v3	Align container for all section on desktop screen	Complete				
RMW	Services-v3	Align container for all section on Tab screen (786px)	Complete				
RMW	Services-v3	Align container for all section on mobile screen(375px)	Complete				
RMW	Services-v3	Manage padding of grid section for all screens	Complete				
RMW	Services-v3	Service banner responsive for (768px)	Complete				
RMW	Services-v4	Improve service button and remove for all devices except desktop	Complete				
Conteaissance		- compress vdo of hero section and apply.	Complete				
Conteaissance		fix scrolltrigger refreshing	Complete				
Date=25-03-206							
RMW	services-v3/digital marketing	change banner image for desktop and mobile	Complete				
RMW		Responsive all seccion for all devices(Desktop, 1024,786,375px)	Complete				
Conteaissance	SnowEffect	Fixed error : Hydration failed : Server and client HTML don't match because something changes during rendering (like state, window, or animations).	Complete				
RMW	Achievemnt awards	Mange spacing of cards	Complete				

RMW	what we provide	inhancce animation	Complete				
Date=30-03-206							
RMW	Content-marketing	Update font -family for whole section	Complete				
RMW	Content-marketing	Update Images for Email newsletter	Complete				
RMW		Update BrandImpact section	Complete				
Conteaissance	Fixed Hero Section Video Rendering Issue	Improved layout stability to prevent inconsistent rendering	Complete				
Conteaissance	Expert section	Fixed ScrollTrigger initialization and cleanup across route transitions.	Complete				
Conteaissance	Hero sectoion	Enhance fade-out animaton onscrollTrigger.	Complete				
Date=31-03-206							
RMW	Commit	Commit on git and update fonts	Complete				
RMW	Services-v3	Content update and update interlinking of "What we do section"	Complete				
RMW	Services-v3	Update meta Title , and meta-description	Complete				
RMW	Services-v3	Update Heading Tags	Complete				
RMW	/services-v3/influencer-mar keting-agency-in-india	Update meta Title , and meta-description	Complete				
RMW	digital-marleting and content-marketing	Update content and responsiveness for all screen size	Complete				
Date=01-04-206							
RMW	digital-marketing	Made Section 3 fully responsive across all desktop and mobile screen sizes, ensuring consistent layout and usability	Complete				
RMW	digital-marketing	update content	Complete				
Conteaissance	Home Page	Updated hero and footer images to match the new design .	Complete	https://dv8.bz/			
Conteaissance	Home Page	Implemented new animations based on the latest reference,	Progress	https://dv8.bz/			
Conteaissance	Home Page	Change bird vdo into butterfly image	Complete				
Conteaissance	Home Page	Improved responsiveness across key breakpoints (1240px, 1024px, 768px, 375px)	Complete				
Conteaissance	ThreeDSection	Modified the mobile slider behavior: converted horizontal scroll animation into a more suitable mobile-friendly interaction using ScrollTrigger adjustments.	Complete				
Conteaissance	Home Page	Replaced the bird video with a butterfly image, optimizing performance and aligning with updated design assets.	Complete				
Date=02-03-206							

Conteaissance		Implemented new animations based on the new reference	Progress					
Conteaissance		Improved responsiveness	Complete					
Conteaissance	Header Section (Toggle Slider Update)	Modified toggle behavior to enable full-width sliding effect	Complete					
Conteaissance	Header Section	Modified toggle slider animation for smoother transitions	Complete					
	Header	Slide-in Underline On hoverEffect of navLink	Complete					
Date=03-03-206								
			Complete					
RMW	creative-services	Change content of banner, layer2,	Complete					
RMW	creative-services	add interlink of services in layer3	Complete					
RMW	creative-services	Add meta-title,description,tag and link	Complete					
RMW	creative-services	Update responsiveness	Complete					
Conteaissance	Loader page	Make loader page with animation of laoding	Complete					
Conteaissance	CT-website	Fix error - Property 'video'& 'span' does not exist on type 'JSX.IntrinsicElements'.	Complete					
Date=06-03-206								
Conteaissance		Replace existing element GIF with optimized version	Complete					
Conteaissance		Implement smooth animation for element (butterfly/gif).	Complete					
Conteaissance		-Animate movement (zig-zag / float / directional flow).	Complete					
Conteaissance		- Control speed & easing for realistic motion.	Complete					
Conteaissance		Sync element movement direction with its facing direction (flip using scaleX)	Complete					
Date=07-03-206								
Conteaissance		Animate butterfly direction in the footer with smooth forward & reverse behavior.	Complete					
Conteaissance		Improve footer overlap with the bottom section for a natural transition	Complete					
Conteaissance		Adjust and optimize movement speed for smoother scroll-based animation	Complete					
Conteaissance		Implement Cloud Background Animation smooth GSAP animation with multilaye cloud	Complete					
Conteaissance		Update gallery imageon portfolio page	Complete					
Date=08-03-206								
RMW	Discussion Forum	create new page of dicussion forum .	Complete					
RMW		Banner Section . - Why Join Discussion. -Discussion Topic. -Who should join. -AskDiscussion. -NeedExpert.	Complete					

Conteaissance		update footer rotation of element.	Complete				
Date=09-03-206							
Conteaissance		Change butterfly gif image	Complete				
Conteaissance	Mobile Screen	Animate butterfly on home page for mobile responsive	Complete				
RMW	WhyJoin Section		Complete				
Date=10-03-206							
Conteaissance		Resolve large files of git storage	Complete				
Conteaissance		Add latest gif image	Complete				
Conteaissance		Delete previous large gif image from git history.	Complete				
Conteaissance		Commit and deploye website on testing link	Complete				
RMW	Discussion Forum	Responsiveness for 375px, 768px,1024px, 1240px and 1366px	Complete				
Date=13-03-206							
Conteaissance	Header	Responsive for 1240px and 1280px screen size	Complete				
Conteaissance	Butterfly animation	“Developed a mobile-responsive butterfly animation with dynamic scaling—expanding after the initial scroll trigger and reverting to its original size upon reaching the bottom section.	Complete				
RMW	Discussion Forum	Fixes bugs of responsive of 375px, 768px,1024px, 1240px and 1366px	Complete				
Conteaissance	Interactive Sectoin	Make responsive animation of interactive section on 768px screen size	Complete				
Conteaissance	Interactive section	Make responsive animation of Expert section on 768px screen size	Complete				
Date=14-03-206							
Conteaissance		Updated content of the Creative Portrait section and made it responsive for 768px, 1024px, and 1240px screen sizes.	Complete				
Conteaissance		Updated content of the Gallery section with proper responsiveness.	Complete				
Conteaissance		Managed the loading page functionality.	Complete				
Conteaissance		Requirement for banner and footer image ,	Pending	Vinay and rachna - say that i will inform you. after inform that...			
Conteaissance		Create docs file of required assets.	Complete				
Conteaissance		Update compressed gif image	Complete				
Conteaissance		Commit latest code and deploye on Testing Link	Complete				
Conteaissance		Animate SVG loader that runs continuously until the full page load event and then fades out smoothly.	Complete				

Date=15-03-206									
Conteaissance		Implemented a continuous animated loader that runs until all assets are loaded.	Complete						
Conteaissance		Optimized and made the latest GIF animation responsive for mobile screens.	Complete						
Conteaissance		Adjusted responsiveness of the GIF animation for tablet and large (lg) screens.	Complete						
Conteaissance		Improved responsiveness of the Creative Portraits section for 1240px and 1366px screen sizes.	Complete						
Date=16-03-206									
RMW	Web Development Page	Align fix in same container of the page of Discussion forum	Complete						
RMW	Web Development Page	Create a new page of web development page	Complete						
RMW	Web Development Page	create a Banner section	Complete						
RMW	Web Development Page	create a about section	Complete						
RMW	Web Development Page	create a Experience section	Complete						
RMW	Web Development Page	create a WhatWeProvide Section	Complete						
RMW	Web Development Page	Create Development section	Complete						
Date=17-03-206									
RMW	Web Development Page	Fully Responsive for all screen of Banner	Complete						
RMW	Web Development Page	Change Banner for Desktop and mobile screen	Complete						
RMW	Web Development Page	create Stats section with complete responsiveness	Complete						
RMW	Web Development Page	make responsive about section for 1366px, 1240px,1024px, 768px	Complete						
RMW	Web Development Page	What we provide section responsive for 1366px , with slider functionality	Complete						
RMW	Web Development Page	Experience section for responsive 1366px, 1240px,1024px, 768px and manage space 1366px	Complete						
RMW	Web Development Page	Make slider of Development matters with 1366px and 375px	Complete						
Date=20-03-206									
RMW	Web Devepoment /banner	Align content on top for mobile screen	Complete						
RMW	Web Devepoment / what we provide	Fix border alignment on mobile screen and large screen for What We Provide section. and fix slider button bottom for 768px	Complete						
RMW	Web Devepoment /rating	Manage spacing and change rating image for Rating Section	Complete						

RMW	Web Devepoment /Devlopment-matters	Only content should slide on tab change and image will be static	Complete					
RMW	Web Devepoment /Devlopment-matters	Add / fix tab functionality (keep tab-buttons bottom of the cards)for tab and mobile screen ,	Complete					
RMW	About and what we provide section	Change content of Abot section and What We Provide section	Complete					
Date=21-03-206								
RMW	RMW	Change video from rmw main page for desktop and mobile screen	Complete					
RMW	RMW	Change Thumbnail image of video from rmw main page for desktop and mobile screen	Complete					
RMW	RMW	Commit and delete large file from git history	Complete					
Conteaissance	Loader	Create a progress bar fake-loader that runs for 5 seconds	Complete					
Conteaissance	Loader	Implement percentage-based progress from 0% to 100% and Display live loading percentage text.	Complete					
Conteaissance	Loader	Add smooth animation to the progress bar fill.	Complete					
Conteaissance	Loader	Show main website content after loader hides.	Complete					
Conteaissance	Loader	Responsiveness on mobile, tablet, and desktop.	Complete					
Conteaissance		Commit and Deploye on testing link	Complete					
Date=22-03-206								
RMW	Service Dropdown	Create a dropdown menu for service sub-services with proper routing (paths)	Progress					
RMW	Service Dropdown	responsiveness across all devices.	Pending					
Conteaissance	Loader	Modify loader design based on reference and improve visual experience.	Pending					
Conteaissance	compress gif with gif-compressor	compress butterfly gif	Complete					
Conteaissance	Scroll-to top	scroll progress ring around the button, but no percentage text, just a visual fill.	Complete					
Date=23-03-206								
RMW	Sub Services	Change icon of sub-services for active link and inactive link	Complete					
RMW	Mega menu of header	Change font size and font family of every sub menu and mega menu	Complete					
RMW		Responsive for 768px, 375px, 1240px, 1024px screen	Complete					
Conteaissance		-Optimize loader performance for faster load time.	Pending					
RMW		Enhance interactive video section for better user experience.	Complete					
Date=24-03-206								

RMW	Discussion Forum	Implement a horizontal slider (carousel) for the Discussion Topics section on desktop screens.	Complete					
RMW	Discussion Forum	Convert the same section into a vertical slider for mobile and tablet devices.	Complete					
RMW	Discussion Forum	Increase and optimize font sizes for both mobile and desktop in the Ask, Discuss & Grow section.	Complete					
RMW	Discussion Forum	Adjust and manage spacing (margins & padding) across all sections for improved layout on mobile and tablet screens.	Complete
